The fortieth anniversary of the beginning of common life at Bose suggests to us to give, this once, a different form to the news about the events and persons that marked this last half-year: we would like to try to read them with you as a sign of continuity of the initial project of monastic life at Bose. This continuity we have tried to express also through the new booklet that presents our community: it has new graphics, new photos, and new text, and is now available also in French and in English.
